

Product Vision – Spaza Shop Registration System

For: the South African government, native spaza shop owners, and township customers

Who: need a fair, efficient, and transparent system for registering, monitoring, and supporting spaza shops

The Spaza Shop Registration System

Is a: digital platform

That: enables secure shop registration, promotes native ownership, monitors food safety, and empowers customer feedback and government oversight

Unlike: the CIPC system, which does not yet support the unique needs of local spaza shops

Our: product provides a verified, complaint-resolving, AI-enhanced system that prioritizes public health, fair trade, and native economic empowerment
